

Analyst - Analytics & Cognitive - VN

At Deloitte, we offer a unique and exceptional career experience to inspire and empower talent like you to make an impact that matters for our clients, people and community. Deloitte offers you a highly inclusive, collaborative workplace and unrivalled opportunities to realize your full potential. We are always looking for people with the relentless energy to push themselves further, and to find new avenues and unique ways to reach our shared goals.

Work you will do

The Analytics & Cognitive team leverages the power of data, analytics, robotics, science and cognitive technologies to uncover hidden relationships from vast troves of data, generate insights, and inform decision-making. Together with the Strategy practice, our Strategy, Growth & Innovation portfolio helps clients transform their business by architecting organizational intelligence programs and differentiated strategies to win in their chosen markets.

This role sits within the Analytics & Cognitive team of Deloitte Southeast Asia, which encompasses data, analytics and cognitive automation.

Enough about us, let's talk about you
